Making your presentations accessible

General guidance

- use our primary font Arial for all presentation text
- font size should be at least 12-14 point
- avoid underlining and italics
- use **bold** for emphasis
- avoid writing in all capital letters or all small caps

Making your presentations accessible

Headings

- use headings to help people navigate through your content
- for headings, use a font size that is at least 20% larger than the normal text
- use **bold** for emphasis
- add extra space around headings and between paragraphs
- ensure hyperlinks look different from headings and normal text

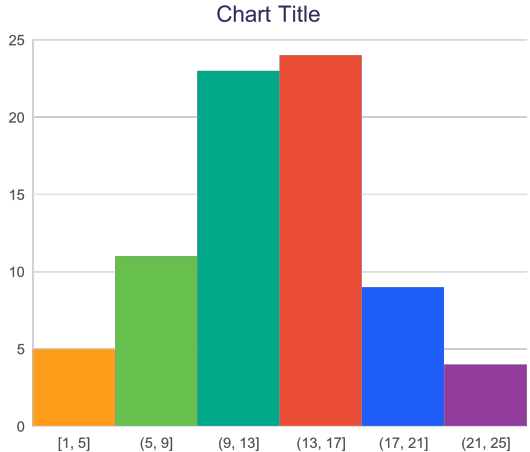

Making your presentations accessible

Aligning text

- left align text, without justification
- avoid multiple columns (as used in newspapers)
- lines should not be too long: 60 to 70 characters
- use white space to group related content
